

MICHAEL OLASUNKANMI

AI Automation & Tools Specialist

X: x.com/_sirPRESTIGE · LinkedIn: linkedin.com/in/prestigejr

SUMMARY

Driven tech enthusiast specializing in intelligent automation systems and modern web experiences. Hands-on experience connecting n8n, Tally, Google Sheets, and AI APIs into pipelines that eliminate repetitive work and run without manual intervention.

SKILLS

Workflow Automation: n8n, Make.com, Zapier, Webhook Integration	AI: Gemini AI API
Web: HTML & CSS, JavaScript (Basics)	Delivery: Gmail Automation, Formspree
Data & Forms: Google Sheets & Apps Script, Tally Forms	Other: Problem Solving & Logical Thinking

PROJECTS

Subscriber Onboarding Automation System

Built a fully automated subscriber pipeline in n8n: deduplicates Tally form entries, classifies leads via the Gemini AI API (Beginner/Intermediate/Professional), logs them to Google Sheets, and triggers a personalized 7-day email welcome sequence — zero manual input.

Tools: n8n, Tally, Google Sheets, Gemini AI API, Gmail

Smart Error Handling & Logging System

Extended the onboarding pipeline to handle real-world edge cases — missing emails, duplicate subscribers, API failures — logging each incident to a dedicated error log and alerting the admin automatically by email.

Tools: n8n, Google Sheets, Gmail, Conditional Logic

Tip Calculator Web Tool

Responsive, interactive tip calculator built with vanilla JavaScript — live calculation with no page reload, embedded directly on my portfolio site.

Tools: HTML, CSS, JavaScript
